21st Annual On-Property Ram Sale

5th October 2023

Welcome

The team from Moojepin would like to welcome you all to our 21st Annual On-Property Ram Sale.

Our breeding philosophy revolves around a continuous pursuit of excellence in sheep breeding. We go to great lengths to simplify your choice of rams, providing comprehensive pedigrees and measuring all available genetic traits in sheep. Moojepin is at the forefront of the industry, focusing on traits that we believe are crucial for profitability, including early growth, muscle development, and fat content.

We have been pioneers in the practice of ewe-lamb joining at 6-7 months of age, collaborating extensively with Murdoch University to promote this as a common industry practice. We are pleased to see many of our leading clients successfully adopting this approach, and we anticipate many more will follow suit.

Our commitment to innovation has allowed us to establish ourselves as a highly sought-after source of Merino genetics in Australia. Our genetics are preferred by restockers and feed-lot operators because of their predictable performance.

Having key traits associated with profitability consistently rank among the top in the industry

gives us immense confidence in our breeding program, and we continue to achieve significant year-on-year improvements. We work closely with Mark Ferguson and the NextGen Agri team to ensure that each trait receives the right level of emphasis, resulting in animals that will serve your flock well into the future.

The Moojepin Team is more dedicated than ever to assist our clients in navigating the next phase of the dynamic sheep industry. We extend our best wishes to everyone for the remainder of the 2023 season and your current purchases.
